THE EARTH'S CATACLYSMIC CHANGES

"Phases shall occur. Part of continents shall disappear entirely, completely."

For there are many things forthcoming to change the soul within man, the mind within man, the body of man, his habitat, this globing entirely. And these are called cataclysmic changes, earth changes, for there is already affecting and coming into being a polarity reversal of the poles of your globing. This has happened several times before, creating ages of cycles of either extreme heat or cold. And the earth cannot endure this again in its full cycle for she has been weakened by this reversal in polarity each time it has occurred.

"The matter of the plane becomes receptive to positive force for the feminine or deva aspect, being negative, becomes responsive to the positive energy of the Heavenly Man. This energy, finding the line of least resistance, pours into the substance of the plane, or the substantial body of the Deva Lords. Owing to the receptive condition of this body it follows certain lines and produces definitely constructive results.

Constructive results transpire in the negative etheric matter of the plane and on the four higher subplanes. On the lower three a contrary effect is produced, and the energy of the Heavenly Man will lead to the destruction of form, preparatory to the building work. The building ever originates on, and proceeds from, etheric levels. Cataclysms of a world wide nature will occur during the next one thousand years; continents will be shaken; lands will be raised and submerged, culminating in the profound material disaster which will overtake the world towards the close of the fourth branch race of the sixth subrace. This will usher in the infant sixth root-race." 1

The polarity reversal comes into being through the negativity of individuals, or for the end of a correspondent cycle of several ages, such as that that is transpiring now, wherein the Kingdom, so often spoken of in promise, shall come unto the earth and be established upon the earth as the City of Light and usher in the Age of the Golden One, when the consciousness of man shall be changed and lifted and returned unto this city which will stand in reality to be with and under the guidance of the Most High in direct channeled form of molecular fission but of a less dense form that you know of it, personified by the White One, the body of the White One, which in orthodoxy is often referred to as the body of the Christ, or the Church.

"The disciple learns to pay no attention to these recurring cycles and interludes between the pairs of opposites for he recognises their intermittency. I

1 Bailey, Alice A. A Treatise on Cosmic Fire p. 467.
do, however, seek to point out this point of danger--for danger it is--and ask you to go on with the work just 'as if' it were entirely new and fascinating.

It is necessary here for you also to remember that though these groups are intended to be Seed groups of the New Age, two factors in connection with them should be remembered:

1. They constitute a unique experiment in the sense that--knowing the possibilities and understanding somewhat the forces which are slowly emerging into prominence in a world rapidly adjusting itself to the new rhythms--yet they are primarily an experiment undertaken by me, your Tibetan teacher and a member of a certain standing in the Hierarchy, with the cooperation of certain other initiates. I am not, as I have already told you, the only worker along these lines and these seed groups are not the only units to be found today in the world. There are, for instance, several seed units working out into being within the framework of the Catholic Church, under the inspiration of the Master Jesus. These are, however, somewhat more subjective than are the groups in which I am particularly interested and their emergence is slower but they do exist. There are, also, two such seed groups in China and four in India. I mention this in order to safeguard you against the sense of uniqueness which is the subtle seed of the great heresy of separateness.

2. These groups of disciples are all passing through the formative stage and change and adjustment is going on. Their pattern is still fluid because too many disciples are receptive to the words of the Masters and are less receptive to the ideas upon which They found Their work. This comment warrants your attention. Later, when the needed adjustments are made and groups of disciples can work together without criticism or misunderstanding, then they can pass on to organised group work. This is necessarily dependent upon the general level of the group endeavour, upon their aspiration and their applied persistence. The willingness to work through these groups exists on our side and is found, therefore, upon the inner planes. The providing of an adequate instrument through which we can work must come from you."

For the old things, behold, they are passing away and crumbling. And the new things are faltering even, except for a few. And these are not even being recognized. I will tell you of this that you can watch. I would give you seven years, but there is not seven years. I give you three or four to see this happen. Within the next four years there will be an increase, if not a direct onslaught movement of the earth revolting. The kingdoms will revolt against the higher kingdoms which are causing most and primarily all of the negativity and all of

---

the pollutant faculties and all of the inner upheaval through vibratory ratings that the earth in undergoing, which may throw it out of its orbit, even.

"...Again, forms differ as do kingdoms according to the nature of the force flowing through them. In the animal kingdom that which corresponds to the permanent atom responds to force of an involutionary character, emanating from a particular group. The human permanent atom responds to force emanating from a group on the evolutionary arc and the Ray of a particular planetary Logos in Whose body a human Monad has a definite place.

Secondly, it must be noted that in view of the above it will be apparent that we are, at this period of manasic inflow and development, concerned with the coming into full vitality and activity of the fifth logoi spirilla; this vitalisation shows itself in the intense activity of the mental plane, and the threefold nature of the electrical phenomena to be witnessed upon it.

a. The atomic subplane. manasic permanent atoms. . . . Positive
b. The fourth subplane. mental units. . . . Negative
c. The egoic groups. . . . causal bodies. . . . Equilibrium or neutral"

The mineral kingdom, as you can well understand, will be the first, then, to move in its direct rebuttal, retaliation to the plant, lower animal kingdom and the kingdom of man. And it shall bring about its awakening and retaliation by bubbling in molten state in the heart of the earth, in the core, far beneath the crust levels, erupting, causing the earth's surface to be as a mother upon a bed of labor, rolling in her pain.

"First. That every kingdom of nature has its note or tone, and the mantric sounds, which concern any transmutative process within that kingdom, will have that note of substance itself, and it is largely the sounding of the note combinations, based on this key, which produces the great world cataclysms, wrought through volcanic action. Every volcano is sounding forth this note, and, for those who can see, the sound and colour (occultly understood) of a volcano are a truly marvellous thing. Every gradation of that note is to be found in the mineral kingdom which is itself divided into three main kingdoms:

a. The baser metals, such as lead and iron, with all allied minerals.

b. The standard metals, such as gold and silver, which play such a vital part in the life of the race, and are the mineral manifestation of the second aspect.

3 Bailey, Alice A. A Treatise on Cosmic Fire p. 694.
c. *The crystals and precious stones, the first aspect as it works out in the mineral kingdom—the consummation of the work of the mineral devas, and the product of their untiring efforts.*"  

Phases shall occur. Part of continents shall disappear entirely, completely. New islands and a partial continent shall arise, even as is already transpiring off the coast of Greenland which is a place I mentioned long ago to watch very carefully. The coastline upon both of the shores of your nation, and all gulf areas, are receding yearly in measured feet.

When the mineral, or solidified rock facet of evolution, which is the first through which man's globing evolved—through the mineral, through the plant, through the lower animal, to the higher animal, to man—through his evolution of soul, when the mineral kingdom revolts you will see mountains crumble and the valleys between mountains, if they are left at all, will be filled with water and be inland lakes. The beds in the very bottom of the ocean shall be mountain peaks. The old shall arise to the surface again. That that you have known will cease to be. This is over a period of many, many years. But, verily, Beloved, I tell you even before this generation passes, shall it be seen. But within the next four years will be the beginning, for already it is beginning, already has begun, already has moved.

All right. Its retaliation is causing a jeopardy or a jeopardizing of the planting. For when the earth moves much of the plant life will be submerged under water where it cannot exist. It is not submarine oriented but is terrain oriented. It, in response then, being the staff of life and the protective covering, the habitat for the lower animalistic, will retaliate upon these. One instance of this: I shall give you two that many here shall see come into being and to pass that as the plant and the mineral attack the lower animalistic, many coral formation will disappear, for there is the retaliation of the lower animal kingdom in reproducing in such giant and tremendous quantities small organisms that right now are already being produced that are red and in a similar shape unto a starfish. They attack the higher forms, they attack the coral reefs, they attack all that they can in retaliation. And this is a destructive process. It is causing a great pollutant faculty in the ocean. It is leaving many areas abandoned of food for fish of certain kinds. It is taking away the oyster beds, the pearl beds. It is seen to be moving from the East. Does anyone know of what I am speaking in any way? Yes?

Remember the prophecy made by many, and even within your Scriptures? Each prophecy is multifaceted, and this is the fulfillment of one superficial level

---

4 Bailey, Alice A. *A Treatise on Cosmic Fire* p. 495.
of prophecy. And the prophecy was "Out of the East shall rise up the red and come unto the West." It is, Beloved, that this form of life is but one that will be destructive and changing to the earth.

The other is far more unbelievable. With the plant kingdom revolting many of the blossoms, many of the blooms, necessary for gathering pollen by bees, which are seen to be fairly innocent, will be taken away. Thus they will move in search of this and swarm.

Within the next four years into your country will come, if there are not measures taken to avoid this, one of the most crucial and dangerous invaders that it has ever known. For in the South American continent a large bee has been developed which is a giant worker. It works harder and faster and produces more sustenant honey and reproduces faster than any other bee upon the globing. It was brought from Africa, but the strain evolved and developed in South America beyond its wildest expectation. It grew in size and in strength. It grew in might and temperament. The breeders of these and those that worked with these insects (and the insect kingdom is included in the lower animalistic) tried to head off the problem that they perceived might entail by breeding them with the Italian bee of Italy which were far more docile. But they would not breed and mix. Thus the kingdom of the lower animalistic, particularly in the hives of the bee, is growing into a monster and moving up the continent. They are known, when provoked or when in need or when in search or when swarming, to attack and kill higher forms of animal life, cattle and humans, those in humanoid form.

Thus this will come, if not avoided, within the next four years. Your men of science already know of this. Your men of agriculture already know of some of these things. The signs are all about. Yet they do not speak of them for fear that a campaign of absolute and direct fear might be placed upon the people. But, Beloved, I tell you what truly is happening. The world is changing from a state of negativity by baptism, evolvement and purification into a land, a planet, in a system of a positivity, for it must be so before the Kingdom be lowered. Within the lifetime of several of those here one tenth of everything upon earth, in every aspect of life, shall be taken away from you unless intercessions are made. For behold, man goes forth destroying the earth, polluting the earth, raping the earth, never replenishing, for he cannot replenish fast enough to make up for what he is taking away. The earth is revolting. Man cannot repay the physical earth for what he has done and what he is doing and what he, perhaps, shall continue to do. He just physically cannot. Thus the karmic debt has been overlapped, steered in a different course that the repayment could be made. It is mankind's
way out. He cannot repay in a physical sense to the physical globe, to the physical world, the world and they that dwell therein, founded upon the seas and established upon the flood.

So, therefore, because the Most High God still wishes mankind to have a way to make his future through his co-creative efforts, or understanding, or being led, He has given the opportunity to repay in the spirit, in the astral, in the etheric, non-densified sense, by service and propagation to bring into focus the spiritual aspect of the earth, of humanity, of the spiritual being. Whether or not man will take this opportunity depends on each individual. No one can repay it, but each must do their part. For in the scriptural reference in Malachi and several other times, and even more harshly within the symbology of the Book of Numbers, within the voice of the prophets that have rung for years and years, knowing and growing necessity for the spiritual etheric counterpart of the earth, of the humanity aspect and of the service for the higher realms, for the Hierarchy, for that that must take the place of physical earth if she dies, knowing the need for preparing the way.

First the preparation must come in the body, in the mind, in the soul of the individuals through being brought together and drawn together, and there must be physical sustenance for this. Man cannot give only his service, for he serves in many different aspects. Malachi calls for one tenth of that that his, a man's possessions, to the church. But it is not truly to be thrown through the church, or to the church, but into world service for humanity's spiritual counterpart and aspect, propagation of the ministry, of the mission to prepare the earth that the earth not be taken by surprise.

Numbers, as I have said, is even more harsh, but nevertheless it was a prophecy, not an order, not a law, not a mandate. It was more of a prophecy than any of these and than many other prophecies well know within your scriptural books of biblical significance. It was referencing the fact that man will, at a point, be allowed the opportunity to give to the world mission, the World Servers, that that is to be the standing bulwark, the time capsule left upon the earth for those that return. Ten percent, which is each in their way could provide this in service, or in that that they have been blessed with, the ministry could spread worldwide within only a few short cycles of time as you measure it. And it is this, that if man does not, then he is still loved, for he will simply lose one tenth of the earth, thus one tenth of what he has, thus one tenth of all things that are productive, that are products that are consumable, that are

---

5 Psalms 24:1-2
6 Malachi 3:1-10
7 Numbers 18:26-32
consumer needed, one tenth of his architecture, his cities, his oceans, his mountains, his vegetation, his animal life, his wealth, his ability to think, his spiritual tithe.

Thus, man must, as an individual, intercede. Man must, as an individual, know this of himself first; not wait to be told by one such as I or anyone else. For within each it is and can be touched to be a part of the World Servers. They have already received some effigy of this information in some way, direct or otherwise, as I have specified before. But it is that this is that Utopia spoken of that could be upon the earth, can be brought into living reality, for the earth to be the Kingdom. All that have conceived of a utopic existence have been describing part of the Kingdom of the White One, Jerusalem, the New Jerusalem established upon the earth. They did not know it. But to bring it out of the ether realm to establish it into reality for mankind, for the Master, individuals must enter into the world service force.8

And how will you know where to go? How will you know where to serve? How will you know what to lift up? Even as all Masters have said, "If I be lifted up, I shall draw unto me."9 I tell you, go forth where there is love. Follow the heart that is out to meet you. Seek for the Spirit. Pray for discernment. Stand in the Light of Truth and look for the altar that is pierced by the seven moons. Centered in the sequel that shall be the spiritual sublimity and apex step above Atlanteus as she was and existed in her heyday, at her height, before her submergence under the water for purification.

"The fourth law controlling human destiny is known by the curious name of the Law of the Tides. It concerns the life of desire and of sensory perception and of feeling. It is closely concerned with the development of awareness, and is an aspect of the Law of Cycles which controls solar evolution. It is a basic human law, protective and developing. It controls the cyclic or 'tidal' life of all souls who are carried by the great river of life--on the crest of desire--into incarnation, and is one of the laws with which the aspirant must work, early in his training. Until he can function as a soul, independent of the cyclic turmoil of terrestrial life, and free from the control of the tides of his emotional existence, he cannot take initiation. It was the inability to do this which brought on Earth the great Atlantean floods which brought that ancient civilisation to an end.

We come now to a consideration of the Law of Cleavages, for our race is controlled by the great heresy of separativeness. Through these cleavages (symbolically speaking) the fires of destruction may emerge and end our

8 Revelation 21:2, 10
9 John 12:32
civilisation, as the Atlantean civilisation was ended, unless the conscious sons of God can build those bridges and develop that understanding which will offset this law, thus bringing into functioning activity the law which governs the coming race. The work that the disciples of the world must seek to do is analogous to that which they as individuals have to do in their own private development: build the antahkarana, which will bridge the gap between the human consciousness and the spiritual, and make the race eventually as intuitional as it is, today, intellectual."  

Now I have said enough in reality, but I shall say more. If you have come forth here, I have given you time to make a decision. If you have come forth seeking to find fault with me, within what I say, that that I manifest, that that I teach, or with me personally, I have given you ten times ten measures of time ample enough to despise me, to hate me, and to doubt me. If you have come forth to learn, you have had ample opportunity ten times ten to learn. If you are undecided, you have had ten times ten extents of time wherein to be observant. And if you have come forth for any other reason besides love, then you have received ten times ten of nothing. For it is, Beloved, that love shall bring about all of these things, for in love is giving and receiving. In love is forgiveness.

How many here know what forgiveness is? Forgiveness, to those of you that do not know, is giving something to someone before they are allowed to give something to you. It is not in saying, "It's all right what you have done." It is in making it all right what they will do before they do it. It is rewarding those that accuse and abuse you. It is loving enough, it is godlike enough to do these things, even though it hurts. And though it hurts, and though you may symbolically suffer, you shall not bleed at the side, at the hands, at the feet or at the brow, as the Christed One, by simply forgiving. Perhaps for other things you shall, but not for forgiving.

I come forth to serve you in that that you seek and what you wish to know, that your soul might be lifted, opened, and might respond. Thus in this time that that you have recorded and laid down here, I shall answer. Then if you seek to question me individually, do so.

The first question is about this area, and how shall it stand, and how shall it be afflicted; where is safety, where is lodging, and the like. It is that this place remains safe for a length of time as all places will be. Only one tenth will be changed drastically first to show man what is needed by Spirit and what can be taken from physical existence to be made into other forms of being,

---

11 John 19:2, 34; 20:27
materialistically, momentarily, or otherwise suppliable for Spirit in energy and motivation. It is that there are few places that shall be absolutely safe from all onslaught of cataclysmic change. But I tell you this: the safest places are those that are flat, are the piedmont areas. They must be at least several hundred miles from the shoreline of the Atlantic and Gulf.*

* From TaPa's April 13th 1973 dissertation.
